01 Product Range Land-Based

Accounting and Management System
for Electronic Gaming Machines (EGMs)

Accounting and Management System
for Video Lottery Terminals (VLTs)

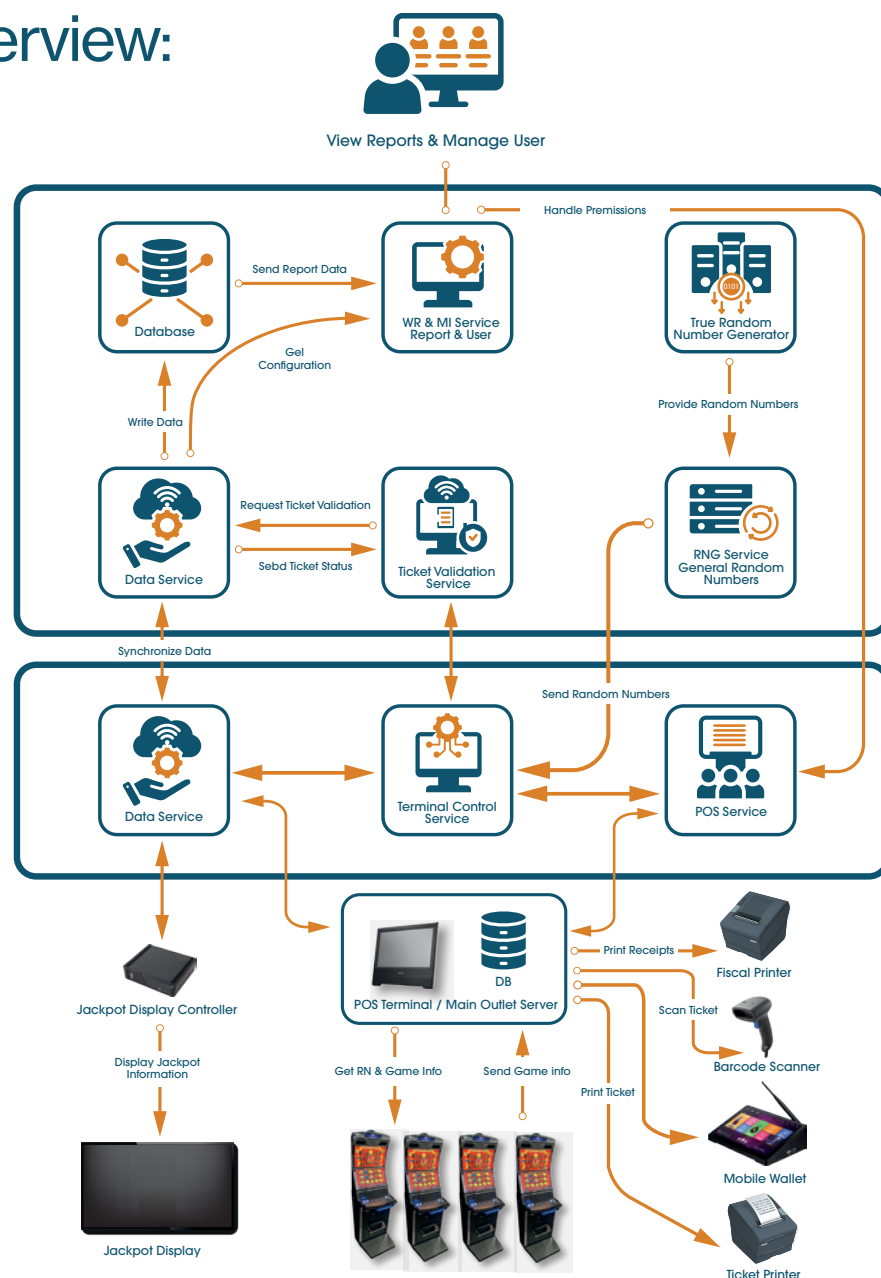

Lotto Solution

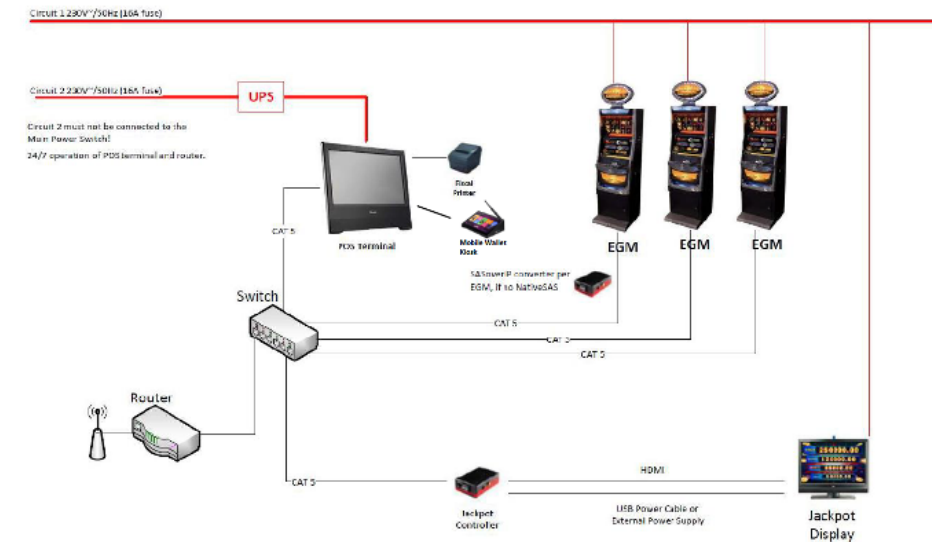

System & Services Scope

02

System Overview:

Outlet Setup

Process

Only „of the shelf“-devices are used in vnet-services operations, so they can be acquired easily around the world

Example of a system setup:

1x Country Server hosted in the cloud and is operated and maintained by vnet-services

per Outlet:

1x POS Terminal – Shuttle X508 or similar version

1x 3G/4G Router for internet

1x Jackpot Display (Raspberry Pie 3 or higher)

Optional peripheral devices:

Fiscal Printer

Mobile Wallet Kiosk (PiPO X9RK)

Etc.

Wallet-Based Cashless

Cashless solution based either on:

Smartphones (Mobile Wallet Based),

Check in kiosks, or

Smartcards (Card Based Wallet) of the following types:

RFID/ NFC

Magnetic Stripe

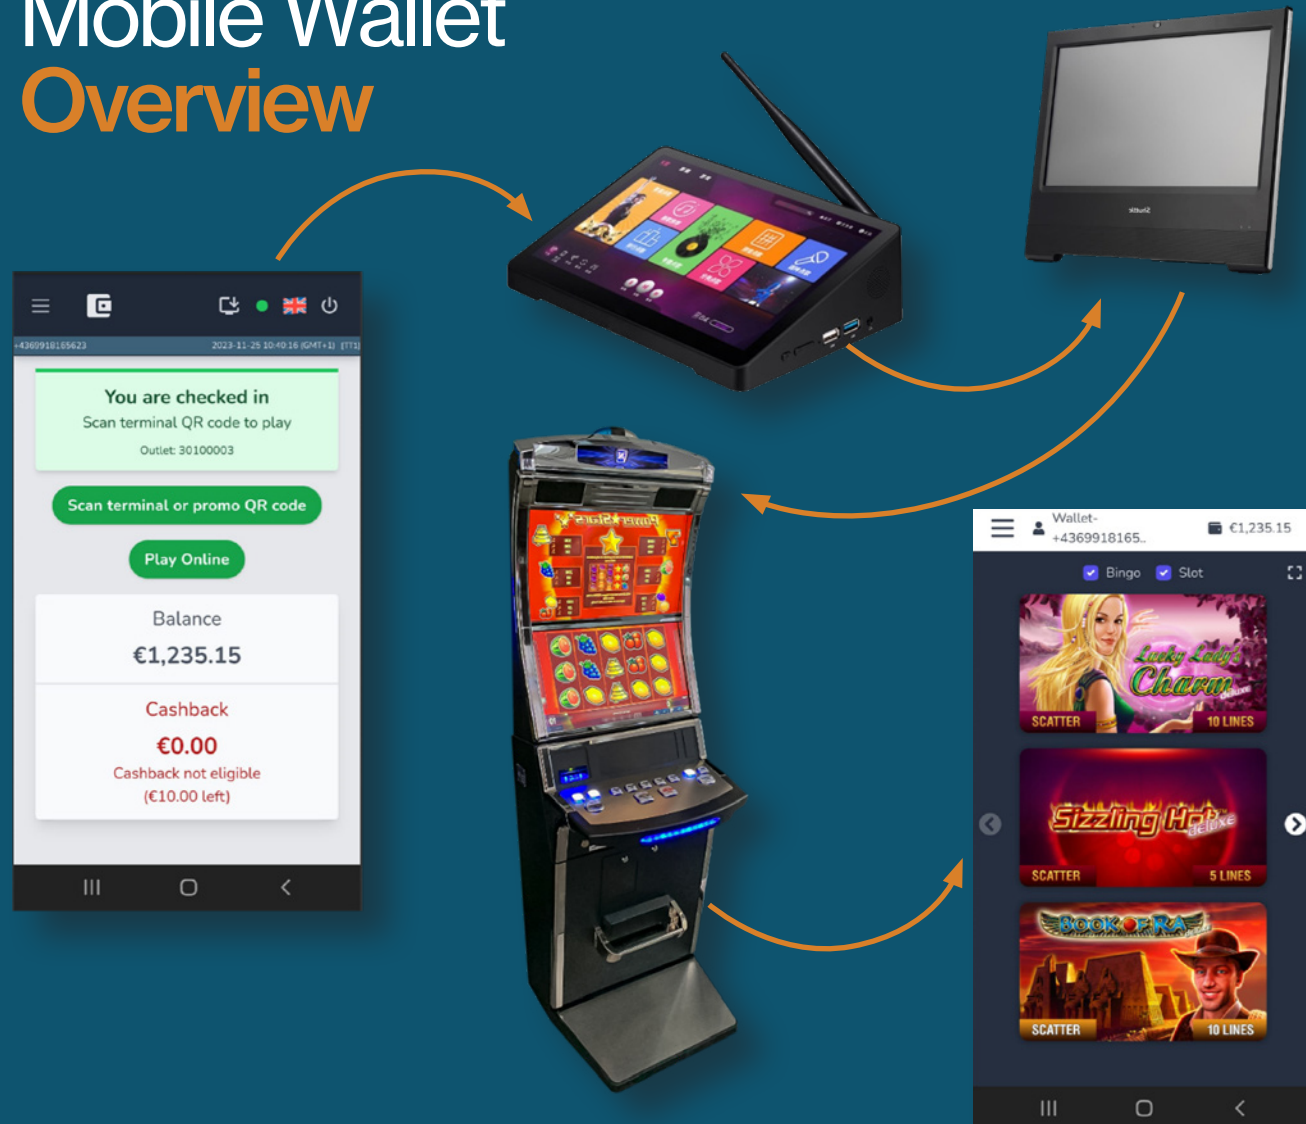

Contact Chip

Anonymous gambling or registered player profiles

Combined with Player Registration (KYC) full Player Management and Player Tracking possibilities

Foundation for Responsible Gaming & Anti Money Laundering (AML) measures

Mobile Wallet Overview

Mobile Wallet Process

- Player scans QR code on the Mobile Wallet Kiosk
- Sends an empty SMS to the system and receives a registration website link
- Registers on the website and sees the Mobile Wallet balance
- Mobile Wallet can be topped up only directly at the POS with the POS attendant
- Scans the QR code of the terminal via the website and balance gets transferred to the terminal
- Playing on the terminal until cashout
- Cashout transfers the credits of the terminal directly back to the player wallet
- Withdraw only at the POS with the POS attendant and a player confirmation via withdraw PIN
- Optional: Remote playing directly via Mobile Wallet

03

1

- Player scans QR code on the Mobile Wallet Kiosk

2

- First time players need to send an empty SMS to the system and receive a registration website link
- Registered players are checked in

3

- Registers on the website and sees the Mobile Wallet balance

4

- Mobile Wallet can be topped up only directly at the POS with the POS attendant

5

- Scans the QR code of the terminal via the website and balance gets transferred to the terminal
- Playing on the terminal until cashout
- Cashout transfers the credits of the terminal directly back to the player wallet

6

- Withdraw only at the POS with the POS attendant and a player confirmation via withdraw PIN

6

- Optional: Remote playing directly via Mobile Wallet

Features & Reporting

WRMI - Web Reporting and Management Interface

Customizable reporting features for different users depending on their emphasis in gaming operations inreal-time

Total accounting and performance reports for operators

Specific reports for daily, weekly, monthly, quarterly, annually reporting to governmental institutions

Player management reports

Adaptable search/report functions for each game, terminal, outlet, group or whole country

Adaptability to specific operational, local or jurisdictional requirements

Management interface features offer options to:

Create and maintain Video Lottery Terminals / EGMs

Create and maintain users and their privileges in the system

Create and maintain Jackpots

Configure cashback and bonusing functionalities

Supportive features like messaging service, role configuration...

Game Breakdown Report:

Delivers game/theme related statistical data like the number of game rounds played within a certain period of time, bets, wins, payout percentages, free games, gambles etc.

Accounting/Totals Report:

Lists financial data per outlet, business day (and terminal if required). The User receives numbers for the most important terminal based accounting data like bets, wins and hold.

Active Terminals Report:

Shows active terminal days per supplier, outlet, company as summary and detail in comparison to terminal days online.

Events Report:

Works as a detailed information tool to list events for selected devices. Users can generate reports of this type per business day and per outlet.
